

Privacy Audit Report

Scan ID 4cbe33dc-1d8b-49e9-b2ba-4cf9b4b4b71b · Owner demo@northstar.dev · Generated 2026-06-27 10:58 UTC

Executive Summary

This scan detected **3** instance(s) of personal data across **3** data type(s): Aadhaar number, Payment card number, Email address. The overall privacy risk is **CRITICAL** with a score of **88.0/100**. The findings and obligations below should be remediated before this content is shared or stored.

Risk Summary

Risk score	88.0 / 100
Risk level	CRITICAL
PII instances	3
Characters scanned	142

PII Inventory

Data type	Count	Max confidence
Aadhaar number (IN_AADHAAR)	1	85%
Payment card number (CREDIT_CARD)	1	90%
Email address (EMAIL_ADDRESS)	2	95%

Compliance Findings (GDPR & India DPDP)

Data type	Severity	GDPR	India DPDP
Aadhaar number	CRITICAL	Art. 9 (special category, national ID), Art. 32 (security)	S. 8 (security safeguards); Aadhaar Act S. 29 (use restrictions)
Payment card number	CRITICAL	Art. 32 (security of processing)	S. 8 (security safeguards)
Email address	MEDIUM	Art. 6 (lawful basis), Art. 21 (right to object)	S. 6 (consent), S. 12 (right to erasure)

Recommended Actions

- Never store in plain text. Mask to last 4 digits, encrypt at rest, and restrict access. Aadhaar has specific statutory handling rules in India.
- Do not store card numbers; tokenise via a PCI-DSS compliant processor.
- Process on a clear lawful basis; honour unsubscribe/erasure requests.
- Record the lawful basis (consent/contract) and retention period for this data, and log this assessment in your audit trail.
